

CEILING SEAT LIFT SL60

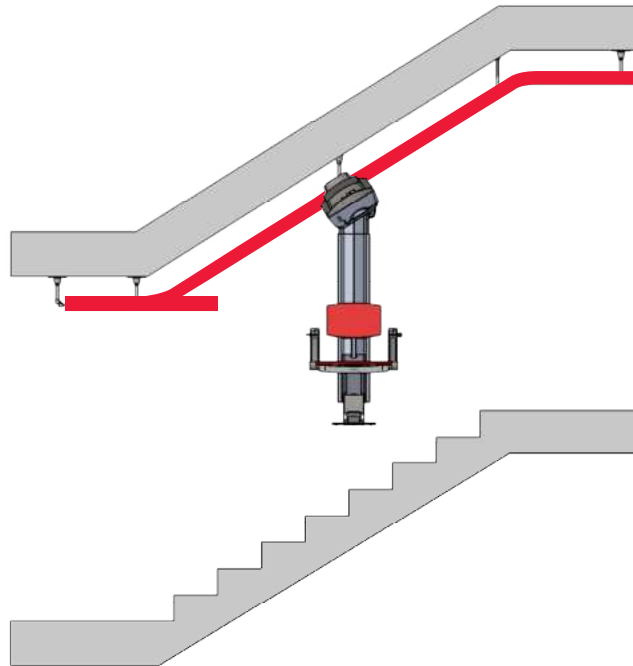

The convenient solution
for your staircase

SL60 – the comfortable ceiling seat lift

If climbing the stairs becomes difficult, there's no need to look for a new flat or a more suitable house. This ceiling lift with telescopic seat provides the perfect solution for getting up and down the stairs safely and comfortably, and it is even ideal for multi-family houses.

A safe journey up or down the stairs, even carrying small loads

Put on the seat belt

Easy to climb onto the lift

Simple and safe operation

Small footprint

The SL60 stands out for its extremely compact design thanks to its foldable armrests, seat and footrest. Despite the fact that the lift has been installed, the entire width of the stairs and passageways remains clear.

The ingenious ceiling guide rail makes it particularly suitable for custom installations. It can be installed over several floors, with any kind of ceiling design and in any kind of staircase.

Easy to use

Solid armrests make it easier to get on and off. The controls are arranged on the arm rest in a logical manner. Gently press the button to travel safely and comfortably to your destination.

Getting up and down the stairs is a joy again with the SL60!
